

Structural Assignment Module 2 (SAM2): Develop SHM Plan

Discussion Question Response Form for SAM2

Your assignment....

(1) Answer the following question. Save a copy of your response for discussion in a subsequent class period.

Damage can have a significant negative impact on the strength of structural members. However, the impact of damage on deformation depends on whether the damage is localized or distributed over a large section of the structural member. Why?

(2) List any questions you have concerning the content of SAM2. Your and other student's questions will be answered in a subsequent class period.
